Events For BICEPP Members

[BICEPP's Website Here](#)

CONTENTS

1. Rapid Recovery Series - Business survival post earthquake
2. ACP Lunch Seminar - Cybersecurity and How to Protect Yourself and Your Organization
3. 2017 Continuity Insights Management Conference

Six dates are set for this very informative hour-long breakfast seminar:

Feb 1 - Granada Hills

Feb 14 - Hollywood
Feb 15 - Pasadena
Feb 16 - Los Angeles
Feb 22 - Culver City
Feb 23 - Long Beach

California has been prone to serious earthquakes, and with so much talk surrounding “the big one,” it is imperative that businesses be ready to recover when it does happen. As a business in L.A., the risk is real... and not just for you; but to your employees, customer base, and the regional economy as a whole. As they say, it’s not *if* it will happen, but when.

The 1-hour **Rapid Recovery** seminar will offer practical steps to address the critical, vulnerable elements of business in LA: Data & Information, Operation, Inventory, Equipment & Facilities, and People. The session is designed with businesses in mind who want to get the essential steps to get the business up and running as quickly as possible.

These seminars will feature two distinguished experts:

- **Mary Lou Zoback**, former Chief Scientists of the USGS Earthquake Science Center

- **Ines Pearce**, Chair of the Disaster Resistant Business Workgroup and Senior Disaster Advisor for the US Chamber of Commerce Foundation.

Who should attend...If you own a business, lead its HR activities, or are responsible for risk management and finances, this Rapid Recovery Seminar is for you. This is especially true for any business that needs to be up and running to support the response and recovery from a major earthquake.

Cybersecurity and How to Protect Yourself and Your

Greetings from ACP Los Angeles.

Our first chapter event of the New Year will take place on Tuesday, February 14th from 11:30am - 2:00pm at the Pepperdine University Westside Conference Center located at 6100 Center Drive, Suite #200, Los Angeles, CA 90045.

Gary Bell, Senior Manager of Cybersecurity at Southern California Edison, will provide an overview of the cybersecurity threat landscape and will describe the steps that companies and individuals can take to mitigate the impact of cybersecurity attacks. In today's interconnected world, every company and individual is vulnerable to these threats, so it's important to know what you can do to protect yourself and your organization.

Please mark your calendars and join us! To RSVP, please visit <http://www.surveymonkey.com/s/ACPLosAngelesChapterRSVP>. Please submit your RSVP no later than Thursday, February 9th. Thank you.

"The 2017 Continuity Insights Management Conference is being held April 24-26 in Denver, Colorado. This is a great professional development opportunity for those involved in emergency management/response, crisis management, business continuity and disaster recovery" Chris Wright, BICEPP President

The industry's leading event for experienced business continuity professionals, with highly relevant, timely, and forward-thinking content. Over its three days there are nearly 60 breakout sessions, compelling keynote presentations, and valuable networking opportunities with industry colleagues. In addition, full conference attendees earn Continuing Education Activity Points.

BICEPP members receive a special price for individual full conference registrations - \$100 off the prevailing price at time of registration. Members will

need to use the code word **bicepp** when registering to get the discounted price.
