

Employee Training, Sharing the Message

LUNCHEON WORKSHOP SERIES

Business and Industry Council
for
**Emergency Planning and
Preparedness**

BICEPP continues its luncheon workshop series with a presentation and discussion on employee training. Once a year we are all required to train our employees on their actions in the event of a fire, earthquake, medical or other emergencies. It's hard to get their attention and often difficult to come up with a new way to share this important information. Here is your opportunity to learn how a large corporation has tackled this issue, and share your creative ideas.
